

Colby Cho

Student + Product Designer

Experience

UX Design Intern – athenahealth

June 2022 – August 2022 (Watertown, MA)

- Functioned as the sole UX Designer within an agile team during this ten week internship
- Goal: Revamp the Jotter tool, a visual patient documentation tool that exists within athenaNet
- Conducted discovery research, synthesized findings, produced high-fidelity designs based on actionable insights, validated these designs, and presented my work to key stakeholders

Product Development Intern – Markit Social, Inc.

June 2021 – September 2021 (Medford, MA)

- Responsible for developing the UX/UI of the new Markit Social app, an all-in-one event finding and planning platform
- Conducted user research and produced market insights for the marketing and product teams, helping to grow the user base by more than threefold

UX Researcher – Tufts University

January 2021 – May 2021 (Medford, MA)

- Worked alongside Tufts University's TTS Design Team to improve the Tufts Student Life website (students.tufts.edu); where the goal was to promote a culture of diversity and inclusion through the website's content experience
- Conducted user research to inform the website design

Extracurriculars

- Member of Tufts Human Factors and Ergonomics Society
- Member of Tufts Product Studio
- Captain of Tufts Men's Club Soccer
